to Matters of Concern.*

**9 February 2022**

«*Technofeminism and migrations*»  
*Judy Wajcman, TechnoFeminism.*

**9 March 2022**

«*Mapping Feminist Technoscience and migrations*»

The STS MIGTEC reading club is a digital meeting space where we suggest and discuss literature related to readings coming from Science & Technology Studies, Critical Migration and Border & Security Studies. The club starts during the STS-MIGTEC Summer School and we will continue with monthly gatherings. The scope is to bring research on migration together with feminist and postcolonial reflections, theories & methodologies developed within an STS context.

Organizers:  
Nina Amelung & Vasiliki Makrygianni  
for the STS MIGTEC network

To apply send an email to:
